Does your property need a new leash of life?

Then look no further!

The UK's two most popular 'warts 'n all' Homes & DIY websites have teamed up to offer clueless Brits a helping hand with their home-improvements.

Specialising in unique renovation and restoration projects, www.cosyhomesonline.com proves that anything is possible by tackling major building 'rescues', and if you want some inspiration from projects in action, the live video updates are the place for you!

Equally, if you want to tackle the work yourself, then sister site www.bubsydogdiy.com shows you how. The site includes a handy Trade Search (with a directory of 6,000 certified tradesmen across the UK) and a forum where visitors can upload and answer each other's DIY queries. What's more, it also features a free DIY advice service and a database packed with real-life DIY disaster stories.

Why not check it out for yourself?

Give your home something to smile about this winter. Go to: www.cosyhomesonline.com and www.bubsydogdiy.com
